TRAIL BLAZER LIBRARY SYSTEM NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2002

A. REPORTING ENTITY

The Trail Blazer Library System (of Northeast Louisiana) was established in 1970 by each police jury in the thirteen parishes in which it operates. The library system consists of thirteen public libraries and three academic libraries. Its purpose is to make library resources of all member libraries available to the people of Northeast Louisiana. The thirteen parishes are Lincoln, Caldwell, Concordia, East Carroll, West Carroll, Franklin, Jackson, Madison, Morehouse, Richland, Tensas, Ouachita and Union. The Trail Blazer Library System is not a component unit of any of the above police juries.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. FUND ACCOUNTING

The accounts of the library system are organized on the basis of a fund and an account group, each of which is considered a separate accounting entity. The General Fund is used to account for all revenues - principally support from member libraries, donations, and interest earned on investments. Salaries, capital acquisitions, and all operating expenditures are paid from this fund. This is a budgeted fund, and any fund balances are considered as resources.

2. <u>ACCOUNT GROUPS</u>

Fixed assets and long-term liabilities of the Governmental Fund Types are accounted for through the account groups. The fixed assets of the library system are accounted for in the General Fixed Assets Account Group. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost.

The account group is not a "fund." It is concerned only with the measurement of financial position and is not involved with the measurement of results of operations.

There are no long-term liabilities at December 31, 2002.

3. <u>ACCOUNTING BASIS</u>

The modified accrual basis of accounting is used for the Governmental Fund Types. This basis of accounting recognizes revenues in the accounting period in which they become available and measurable, and expenditures in the accounting period in which the fund liability is incurred.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. ACCOUNTING BASIS (Continued)

Basis of accounting refers to which revenues and expenditures are recognized and reported in the financial statements. Basis of accounting relates to the timing and measurements made, regardless of the measurement focus applied.

The records of the library system are maintained on a cash basis of accounting. However, the General Fund as reported in the accompanying financial statements, has been converted to a modified accrual basis of accounting utilizing the following practices:

Revenues

Support from member libraries is recorded when the library system is entitled to the funds.

Interest earned on time deposits is recorded when the time deposits have matured and the income is available.

Substantially all other revenues are recorded when received.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for accumulated sick leave which is not accrued.

4. BUDGETARY ACCOUNTING

Annually the board of commissioners adopts a budget for the General Fund based on cash estimates. Actual revenues and expenditures are periodically compared to budget line-items to determine whether budget amendments are needed. The budget was amended once during 2002.

5. VACATION AND SICK LEAVE

Employees holding a masters degree in Library Science earn 12 days of vacation leave per year and all other employees earn 10 days of vacation leave per year. In addition, after one year of employment all employees earn one additional day of vacation leave for each year of employment with the library system. Vacation leaves must be used in the year earned. All annual leave had been taken at December 31, 2002.
